

Hestóvin Hoofbeats

WE BELIEVE IN THE POWER OF THE HORSE TO TEACH, INSPIRE, AND HEAL.

VOLUNTEER SPOTLIGHT: HANNA BRONZ

Hanna began volunteering at Hestóvin Stables in November and we are thrilled to welcome her to our Volunteer Team! Hanna works as a Horse Leader and a Side-walker during lessons and also stays longer to help with barn chores! Hanna tells us, "I enjoy volunteering at Hestóvin because I know how impactful horses can be for people's mental and physical health! I appreciate meeting new students and seeing familiar faces each time I come to the barn".

ICELANDIC HORSES FUN FACT:

Icelandic horses come in many different colors and patterns that make them a unique breed. The most common colors are chestnut, black, or bay and the most rare is the color-changing roan. There are over 100 different recognized color variations, each with its own Icelandic name.

Please email or call us to find out more about our new workshops or to schedule.
